

# COMPANY OVERVIEW

---

Misarma Marine Sdn. Bhd. (MMSB) is a local owned-Malaysia marine company and registered in Miri, year 2015. Although Misarma Marine is young and new, with the reputation held by its mother company, Misarma Enterprise Sdn. Bhd., the company is simply dynamic, fast moving, innovative and developing rapidly. Misarma Marine provides a wide and fast growing range of Oil and Gas related shipping and ship-chandelling solutions for our clients.

The core competencies of our company are the provision of wharf services, together with ship chandelling and vessel chartering services. We strive to build long term relationships which results in mutual benefits for all. MMSB's ethos is embedded in its Mission and Business Philosophy.

## MISSION

Providing tradition of excellent services exceeding our clients' expectations and being recognized locally and internationally through:

- Building Robust Client Loyalty – Generate a loyal customer base via full integration with client-driven alliances
- Empowering Effective Corporate Communication – Develop collaborative communication networking channels to inspire and mobilize all company resources at hand to reach out for their full potential
- Endorsing Proactive Planning – Designing the blueprint for future development and secure sustained strategic repositioning to effectively maneuver the rapidly fluctuating global, regional and local market conditions

## QUALITY POLICY & OBJECTIVES

Misarma Marine Sdn. Bhd. is committed to operate our business process which complies with all the requirement of the ISO 9001, ISO 14001 and OHSAS 18001 standard.

We shall systematically enforce and continuously strive to ensure product quality, safe and healthy work place and ensure those statutory regulations and other applicable requirements which MMSB subjected to are complied. We shall make available out Integrated Management System (IMS) to all workers and relevant external parties, as appropriate.

In order to meet these obligations, the Company shall:

- Ensure customers are truly satisfied in our products and services;
- Ensure the safety and health of all members of the company by preventing work- related injuries, ill health, diseases and incidents at all project sites;
- Communicate and implement the latest ESH regulations and others requirements through the promotion of excellence product quality, a positive safety and good health to all employees of MMSB.
- Provide adequate resources to implement this Policy and seek to up-to-date and improve on all the provisions stipulated.
- Ensuring that workers are consulted and encouraged to participate actively in allelements of the IMS; and
- Ensure continual improvement by regularly reviewing the IMS policy and objectives.

# SERVICES

## SHIP CHARTERING & MANAGEMENT SERVICESHIP

Misarma Marine is a specialised ship chandelling / manager offering services to our esteemed customers who are engaged in operations and maintenance on offshore oil & gas installations, production rigs and facilities.

Since the initial operation of our company, we have formed strong relationship with shipyards and ship owners. This gives our company access to wide range of vessels such as;

- Anchor Handling Tug / Anchor Handling Tug Supply Vessel
- Towing Tug/Tug Boat
- Flat Top Barge/Transportation Barge
- Platform Supply Vessel/Utility SupplyVessel
- Workboat Vessels

We aim to provide the highest standards of service to our customers at strategically located ports within Malaysia. Our company has a skillful blend of technical ability combined with business acumen which has made it renowned for its ability to manage specialised vessels profitably and efficiently.

As a specialised Ship Manager, we offer a professionally organised shore based management team which is geared to work closely with owners to achieve the common goal of high quality operations.

In addition, we can also enter into joint ventures with vessel owners to secure the best suited vessels to match clients' needs. We established a strong foundation of corporate governance and business integrity, and we adhere to the highest level of safety throughout our operations.

# SERVICES

## MISARMA MARINE WHARF

In 1974, the formation of Malaysian oil and gas company PETRONAS led to co-operation between PETRONAS and Shell on oil exploration in the Miri region. Sarawak Operations (SKO) has tendered projects all around Miri Sea Water. As an enhancement for shipping and marine industry, the projects have become a market boomer. As there are numerous PETRONAS projects going on within Miri waters, it shows there is a demand for a marine wharf to act as a supporting centre for all relevant operations.

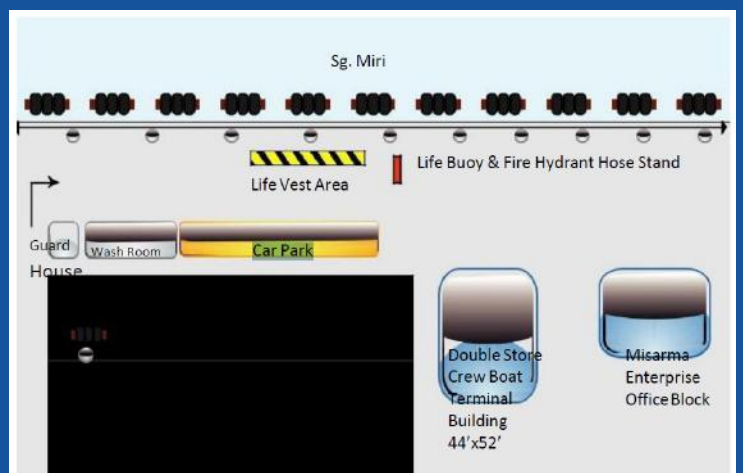

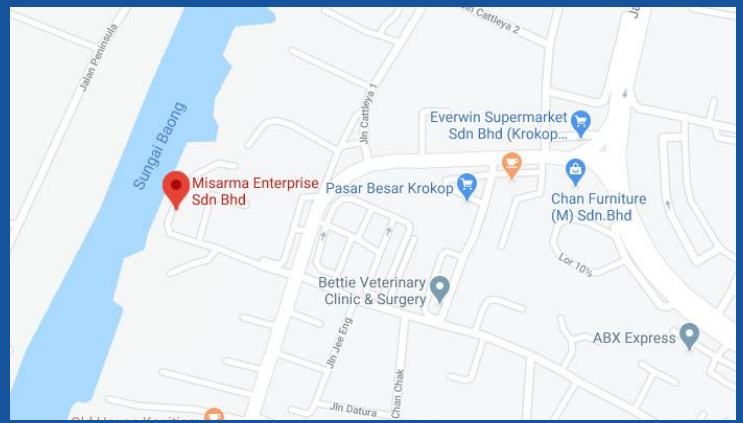

Derived by the increasing installation and operation of offshore activities in Miri waters, the demand for reliable services, appropriate storage and handling areas and fast access to safe berths increases as well. Nevertheless, the famous Baong River also known as Miri River plays a major role as a transit for loading operation, berthing, repair and maintenance services and others related matters to shipping industries. Most importantly, it serves as the main route for vessels to gain entry and exit into Miri River and also a central point of vessels berthing support.

### LOCATION

Misarma Marine Wharf is strategically located alongside Baong River, measuring a total length of 140 meters with 3 meters minimum alongside depth.

The wharf is operational 24 hours a day, seven days a week. It is mainly used by vessels for loading and unloading, repairing, bunkering, waste discharging and supply purposes and as well as crew change.

In enhancing our services to clients, our terminal and wharf layout are well designed to meet the standards or requirement of our clients. Misarma Marine Wharf offers more than meets the eyes. We provide variety of services and facilities. This has placed Misarma Marine among the preferred location for vessels to berth or dock before proceeding to the next destination.

# SERVICES

## BERTHING AND UN-BERTHING SERVICES

Our wharf infrastructure allows clients to load and discharge structures, modules and project cargoes in a safe and effective manner. It provides a “single-stop” solution to companies that require a quick turnaround of vessel operations, open yard support services and end-to-end logistics solutions.

## FRESH WATER & SHORE POWER SUPPLY

Fresh water and shore power supply is available at all times. Delivery is through hydrants and local electricity grid right where the vessels are berthed at.

## LIFTING SERVICES

We offer professional lifting services to our clients whereby our services extends to various lifting equipment from the supply of shackles or lifting & hoisting tools to a complex fly away package of large pieces of equipment.

## CREW CHANGE TERMINAL BUILDING SERVICES

We provides a crew change terminal that allows clients to embark/disembark their crews and personnel in a safe and effective manner. We also provide safety screening services which includes alcohol and body screening test. Other than that, our facility is equipped with safety briefing room, prayer room and luggage room for the convenience of the crew to put their PPE prior to Dedicated company site offices are provided to clients who wish to set up their office equipment for crew change purpose.

# FACILITIES

## CREW BOAT TERMINAL

Misarma terminal is a purpose-built facility that offers an integrated suite of marine terminal related services in targeting the offshore and marine industry.

## SECURITY

In order to ensure the safety and security of our client's assets and vessels, our wharf is equipped with 12 units of spotlights and 39 units of CCTV. Security surveillance is available 24-hours a day and security patrol services are working around the clock.

## STORAGE FACILITIES

We provide storage facilities for short to long term rental that would be cost and time saving between berthing operations when vessels are inshore.

Misarma storage areas include: -

- Dry warehouse – 1000 sqft
- Opening Space Storage Area – 6000 sqft
- Facilities
